

MARK TOTTENHAM

Expert Witness Consultant

Mark Tottenham brings over twenty years of courtroom experience as a practicing barrister to his work assisting witnesses in high-stakes litigation. As co-host of Ireland's premier legal podcast *The Fifth Court*, Mark has analysed hundreds of cases where justice hinged on the quality of witness communication.

Through systematic examination of courtroom failures and successes, Mark has identified preventable patterns that now underlie the framework of his expert witness assistance. His commitment to ensuring justice has a clear voice drives his work with attorneys, expert witnesses, and institutions worldwide.

Mark's published works have become essential resources for legal professionals globally. His book *The Reliable Expert Witness* (Clarus Press Press, 2021) has been internationally recognised in providing practical guidance for expert witnesses navigating the complexities of legal testimony, establishing the standard for professional witness preparation internationally.

His textbook, *A Guide to Expert Witness Evidence* (Bloomsbury Professional 2019) earned recognition as Dublin Solicitors Bar Association's "Practical Law Book of the Year 2020" and is the leading Irish textbook on the subject.

As a keynote speaker, Mark brings courtroom realities to life through carefully selected cases that reveal how poor expert witnesses can undermine cases, often leading to serious miscarriages of justice. His jaw dropping stories create lasting professional connections as audiences recognise shared challenges and opportunities for improving the justice system.

Mark has developed comprehensive training systems for both legal teams and expert witnesses. He regularly advises on the proper instruction of expert witnesses, and structure of reports, ensuring testimony provides courts with clearly communicated facts that serve the justice of the case. His work bridges the critical gap between technical expertise and courtroom communication, preventing miscommunications that lead to wrongful convictions and erode public trust.
